

Power Software Licensing

Power Software offers two forms of licensing:

1. Host-locked (also “Node-locked”) whereby the machine name is locked into the license and the software can only run on that machine.
2. Floating whereby the software can be installed on an unlimited number of machines (provided they can access the server) but only one user can use the software concurrently.

Host-locked License Costs

Product	License	Maintenance
Krakatau Professional	2,995	495
Krakatau Project Manager	4,995	995
Essential Metrics	895	95
Visualize it!	495	95

Annual Maintenance and Support includes bug-fixes, major and minor updates and telephone and email support. For each license, you must purchase a Maintenance and Support contract, renewable 12 months from date of invoice.

Floating License Costs

Premium Floating License Server

The Premium Floating License Server support up to 25 users of the products listed below. You must purchase one server, and then as many licenses of the individual products as you require.

Product	License	Maintenance
Premium Floating License Server	9,995	1,995
Krakatau Professional	995	125
Krakatau Project Manager	1,495	145
Essential Metrics	495	95
Visualize it!	495	95

Elementary Floating License Server

The Elementary Floating License Server support up to 25 users of the products listed below. You must purchase one server, and then as many licenses of the individual products as you require. Note. This option only applies to Essential Metrics and Visualize it! clients.

Product	License	Maintenance
Elementary Floating License Server	1,995	495
Essential Metrics	495	95
Visualize it!	495	95
